JULIEN®

Collection 2008

Plus de 60 ans d'excellence

C'est avec fierté que depuis déjà 60 ans, Julien répond aux attentes toujours plus élevées de sa clientèle. Petite compagnie aux moyens restreints lors de sa fondation par LéoT. Julien en 1946, elle est considérée aujourd'hui comme un leader dans le développement de produits innovateurs, la gestion de projets d'envergure internationale d'aménagements commerciaux et la fabrication de pièces à haut volume. L'entreprise peut se targuer d'être l'un des maîtres dans le traitement de l'acier inoxydable. Elle occupe d'ailleurs le premier rang en Amérique du Nord dans les domaines de la sous-traitance industrielle, du développement de produits ainsi que de la fabrication de pièces en acier inoxydable.

Mondialement reconnue, la compagnie exporte son excellence et son savoir-faire dans plusieurs pays. C'est en misant sur un personnel hautement qualifié et en appliquant une gestion saine et audacieuse que cet établissement peut répondre quotidiennement à de nouveaux défis. Au cours des dix dernières années, Julien a vu son chiffre d'affaires annuel grimper de 15 à 60 millions de dollars. L'avenir semble donc prometteur pour cette entreprise visant continuellement l'excellence.

1946 - Des débuts modestes

La compagnie débute ses opérations en 1946 sous le nom du propriétaire, Léo T. Julien inc. M. Julien vend des accessoires de cuisine comme de la coutellerie ou encore des casseroles aux restaurateurs de la région et aux communautés religieuses.

Au début des années 1950, l'établissement développe un nouveau créneau, soit la conception manuelle de certains accessoires, notamment des étagères ou des tables à vapeur. Julien connaît toutefois des problèmes économiques en 1957. George Julien, un retraité qui a travaillé 50 ans pour l'entreprise, se remémore : «Malgré le manque de travail, le patron nous gardait quand même. Il y a eu des moments diffi ciles, mais je n'ai jamais vécu de mise à pied. Après 1957, la compagnie a connu une progression constante».

1963 - Première phase d'expansion

L'entreprise préconise des relations harmonieuses et respectueuses avec son personnel qui constitue son atout le plus puissant. En effet, dès 1963, les relations de travail sont régies par une convention collective. Julien connaît une importante première phase d'expansion au cours des années 1960. L'entreprise décroche alors un contrat colossal : fournir les équipements de cuisine pour l'Exposition universelle de Montréal en 1967. Julien réussit à remplir son mandat dans le temps alloué, accentuant ainsi sa réputation d'entreprise sérieuse et efficace. D'autres contrats importants suivront avec diverses chaînes de restauration telles que Saint-Hubert, Normandin ou encore Saint-Germain.

Le décès du fondateur en 1973 amènera le rachat de la compagnie par SOMESCO INC. L'entreprise réalisera d'autres projets d'envergure au cours des années 1970, notamment ceux reliés aux grands travaux de construction de barrages dans la région de la Baie James.

1978 - Deuxième phase d'expansion

Afin de poursuivre son expansion, Julien déménagera dans une nouvelle usine de 4500 m² en 1978 et mettra sur pied son département de mise en marché en 1981. Les années 1980 marqueront l'expansion de Julien en Amérique du Nord grâce à la création de filiales dans plusieurs régions ainsi qu'à la signature de divers partenariats et de contrats majeurs comme celui avec le ministère de la Défense nationale en 1985.

Berthier Chénard achète l'entreprise en 1987. C'est le début des travaux d'informatisation des activités de conception, de gestion ainsi que de production. Plusieurs acquisitions augmentent la production, obligeant ainsi l'entreprise à agrandir et à moderniser son usine en se procurant notamment une découpeuse au laser.

Les années 1990 sont marquées par de nombreuses réussites, comme la création de la marque PROCHEF, la réalisation de projets importants dont celui pour le Centre Molson à Montréal, la création d'un important réseau de distribution, l'obtention des certifications ISO 9002 et CWB 47.1 ainsi que d'importantes festivités pour le 50e anniversaire de l'entreprise.

1995 - Un tournant stratégique

L'acquisition de l'entreprise par quelques-uns de ses cadres, notamment Gilles St-Pierre, président actuel et actionnaire majoritaire, sonne le début d'une autre ère d'expansion. En effet, le chiffre d'affaires annuel de l'entreprise grimpe de 15 à 60 millions de dollars entre 1995 et 2005, et ce grâce à l'audace des gestionnaires et la compétence de son personnel.

De grandes ambitions pour l'avenir

Aujourd'hui, Julien emploie plus de 300 personnes et exporte ses produits principalement en Amérique du Nord et, grâce à des distributeurs et autres partenaires, ses produits sont disponibles à l'échelle mondiale. Réalisant d'importants projets dans ses trois divisions, soit résidentielle, commerciale et industrielle, l'entreprise cherche à accentuer son rôle de leader dans ces domaines. M. St-Pierre résume ainsi les objectifs ambitieux de Julien : «Nous voulons doubler notre chiffre d'affaires actuel pour l'ensemble de nos divisions. De plus, nous sommes très fi ers d'avoir réussi à faire progresser l'entreprise tout en gardant des relations harmonieuses avec l'ensemble des employés. Comme le décrit notre vision : Julien vise à être reconnue pour son offre de solutions optimales à ses clients, ainsi que pour son excellence opérationnelle, nous voulons voir grandir notre entreprise tout en continuant à élever son degré d'excellence et d'expertise. De très beaux défi s nous attendent». La barre est haute, mais l'entreprise est habituée à surprendre les plus sceptiques par son imagination et sa créativité.

Viser vert

Avec l'augmentation des coûts du carburant et une conscience écologique de plus en plus grande, la recherche de produits écologiques innovateurs et d'actions nouvelles pour la sauvegarde de l'environnement ne connaît pas de répit. Et parce qu'une multitude d'entreprises se sont dotées d'une image verte, les consommateurs soucieux de faire des choix responsables doivent mieux se renseigner. Jusqu'ici peu associé aux produits verts, l'acier inoxydable en rencontre néanmoins toutes les exigences. Réutilisable à l'infini et résistant aux températures extrêmes et à la corrosion, l'acier inoxydable peut être fondu et recyclé. Et parce qu'il peut être indéfiniment réutilisé sans que ses qualités initiales soient altérées, il contribue à la préservation des ressources naturelles. Pour cette raison, plusieurs consommateurs optent pour des éviers, lavabos et électroménagers en acier inoxydable.

Manufacturier de produits pour cuisines et salles de bain reconnu mondialement pour la transformation de l'acier inoxydable depuis plus de 60 ans, Julien® procède à l'utilisation de ses matériaux et à la fabrication de ses produits de façon responsable et dans le plus grand respect de l'environnement. Chaque produit créé par Julien se compose à 90% d'acier inoxydable recyclé et recyclable. Étonnamment, l'entreprise a rassemblé et vendu l'an dernier plus de 1,078 tonnes d'acier inoxydable à des récupérateurs d'acier, s'assurant ainsi que toutes les pertes soient recyclées. De plus, l'acier inoxydable de Julien est systématiquement séparé par grade et récupéré dans des bacs de récupération avant d'être collecté par des camions de recyclage qui transitent entre l'usine et le centre de tri. L'acier de Julien est fondu électriquement et est raffiné au moyen de gaz inertes tel l'argon. Des mesures de précautions optimales sont prises pour réduire au minimum les émanations et les émissions de poussière. Poussant plus loin leurs efforts de recyclage, les usines Julien sont équipées pour recycler la poussière pendant le processus sidérurgique. Contrairement aux procédés pour les éviers en matériau composite ou en plastique, le procédé de fabrication pour les éviers et lavabos en acier inoxydable n'entraîne aucune émission de composés organiques volatils.

Maintenant que vous connaissez le côté vert de Julien®, sachez que leurs produits sont également vraiment cool.

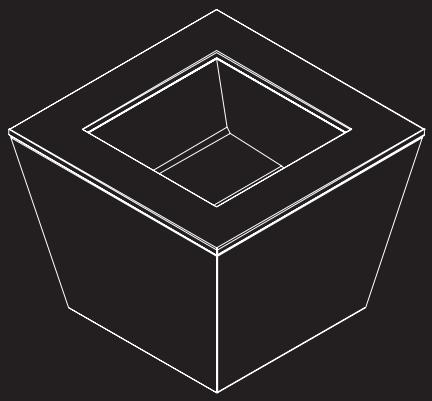
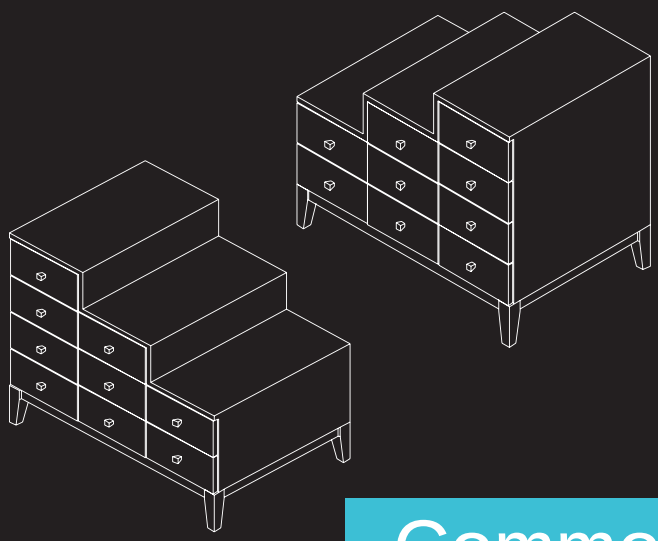
Baignoire



Dimension hors tout
55⅛" x 55⅛" x 42¾"

Inspirée de l'ofuro (baignoire japonaise), l'acier inoxydable confère une touche de modernité à cette composante de base de toute salle de bain digne de ce nom. Profonde à souhait, elle permet une immersion complète apportant sérénité et apaisement, et tous les bénéfices liés à ces moments de détente prolongés.



Dimension hors tout
35¼" x 23⅜" x 30¼"

Ce meuble aux lignes stylisées combinant harmonieusement style asiatique et acier inoxydable fini à la main offre un supplément d'espace de rangement pour la salle de bain ou la chambre des maîtres. Élégance et fonctionnalité vont ici de pair.

GARANTIE LIMITÉE

APPLICABLE AUX ÉVIERS, BLOCS-ÉVIERS ET MODULES ÉVIERS ("LE PRODUIT")

Julien inc. garantit à vie, contre tout vice de matériel et de fabrication, les composantes [fixes] en acier inoxydable du Produit et, pour une durée d'un an à compter de la date d'achat, les autres composantes [mobiles] fabriquées par Julien inc. et les accessoires offerts en option. Cette garantie limitée ne bénéficie qu'au propriétaire-utilisateur initial et n'est pas cessible à tout acquéreur subséquent. En cas d'une réclamation en vertu de la présente garantie, une preuve d'achat original sera requise – veuillez conserver votre facture originale.

La présente garantie se limite aux défauts et dommages au Produit et à ses composantes résultant d'un usage résidentiel normal mais ne couvre pas ceux causés par:

a) la corrosion [chimique ou naturelle];
b) les rayures, les éraflures ou les égratignures;
c) une mauvaise utilisation, un mauvais usage ou un usage abusif;
d) les bosses ou encavures;
e) les déformations résultant de l'impact d'un objet;
f) l'usure normale;
g) l'installation, l'entretien ou le nettoyage non conforme aux instructions écrites fournies par Julien inc.;

ou ceux résultant :

h) d'une utilisation commerciale;
i) de facteurs environnementaux;
j) des coûts de transport et manutention pour le retour du Produit ou de ses composantes pour réparation ou remplacement en application de la présente garantie limitée;
k) des coûts de main-d'oeuvre ou de tous autres coûts engendrés par l'enlèvement, la réparation, le emplacement, les ajustements ou l'installation du Produit ou de ses composantes en application de la présente garantie limitée;
l) des dommages indirects ou incidents.

Julien inc., à sa seule discrétion, pourra réparer, remplacer ou effectuer les ajustements requis pour remettre le Produit ou ses composantes en bon état. La responsabilité de Julien inc. ne devra jamais excéder le coût d'achat du Produit. Julien inc. se réserve le droit d'inspecter l'installation préalablement au remplacement ou à la réparation du Produit ou de ses composantes.

Cette garantie limitée deviendra nulle et non avenue si le Produit ou ses composantes ont été réparés, altérés ou modifiés autrement que par Julien inc. ou sous sa supervision.

Cette garantie limitée remplace toute autre garantie, expresse ou implicite, incluant les garanties implicites de valeur marchande ou d'adaptabilité à une utilisation spécifique. Les lois régissant les garanties peuvent varier d'une province ou d'un état à un autre. La présente garantie ne se veut pas contraire à l'ordre public ni ne doit être interprétée comme telle.

Si vous croyez avoir une réclamation visée par cette garantie, veuillez communiquer avec le service à la clientèle de Julien.
